### FRIDAY'S STOCK MARKET.

New York, July 14.—The most encouraging feature of today's stock market was the comparative steadiness of the railroad division in the face of more serious strike conditions. A few secondary or minor transportation, such as St. Paul preferred, Missouri Pacific preferred and Wheeling and Lake Erie preferred were moderately heavy, but the investment group was well supported.  
Otherwise the list was spotty and irregular, forenoon declines of one to four points among oils, steels, equipments, motors and shippings being followed by general recoveries later. At the end, however, gains and losses were fixed.  
Shorts in Mexican Petroleum were again punished, that stock rising almost ten points from its low of the morning and closing at a net gain of 2-1/2 after having shown a loss of 4-1/2 points. Pan-American Petroleum, Mexican Standard and Standard Oil of California also benefited by a vigorous recoil in Mexican Petroleum.  
Former favorites of the equipment and motor types were tossed to and fro during the early and intermediate periods, but finishing at substantial gains with American Can and Consolidated Gas. Final prices for most of the miscellaneous showed slight changes. Sales amounted to 755,000 shares.  
The three per cent. opening and renewal rate for call loans was met by private offerings at a net gain of 2-1/2 after having shown a loss of 2-1/2 per cent. Time money was firm at 4-1/2 to 4-2 per cent, but high grade commercial paper was marketed at as low as 4 per cent.  
Another light day was reported in the foreign market, where the further firmness of sterling bills was in striking contrast to reactionary tendencies elsewhere. Allied remittances eased two to six points and most of the neutrals, Norway and Sweden excepted, were lower with German marks under their recent top.

### NEW TOP PRICES FOR LIBERTIES.

New York, July 14.—United States war bonds, as represented by Liberty Bonds, were the outstanding features of today's generally strong bond market, with easy money as an accelerating factor.  
New top prices for the year were indicated by the first exempt 3-1/2's at 101; second 4's at 100.50, third 4-1/2's at 100.50 and fourth 4-1/2's at 101; while the first 4's duplicated the previous maximum of the year at 100.50.  
Foreign war loans made an impression showing by comparison, British, French and Belgian governments manifesting no definite trend, with heaviness in United Kingdom of 1927 and several of the French municipals.

### WHEAT PRICES DECLINE.

Chicago, July 14.—Better prospects for escape from black rust had much to do with bringing about declines in the wheat market. The close was weak, 1 cent to 1/2 cent lower. September \$1.13 1/2 to \$1.13 3/4 and December \$1.16 1/2 to \$1.16 3/4. Corn finished a shade off to 1/2 cent up, oats 1/4 to 3/4 cent down, and provisions varying from a set-back of 10 cents to a rise of 2-1/2 cent.

### COPPER PRICES.

New York, July 14.—Copper firm, electrolytic spot and later 14; tin easier, spot and nearby 2-1/4; futures \$1.12; iron steady, price unchanged; lead steady, price 57 1/2@57 3/4; zinc steady, East St. Louis spot and nearby delivery 57 1/2; antimony, spot, 56 1/2@57.

### CALL MONEY FIRM.

New York, July 14.—Call money easy: high 3; low 2-3/4; ruling rate 3; closing bid 2-3/4; offered at 3; last loan 3; call loans against acceptances 2-3/4.

### SPOT COTTON QUIET.

New York, July 14.—Spot cotton quiet; middling 22 1/2.
